	{ per cent. 100	109	125	140	157	166

The above summarised statement shews, in comparison with the local production, the value of imports and the percentage increases in the following categories, viz.:—"Dutiable," "Free," "Manufactured," and "Unmanufactured." Imports subject to 5 per cent. duties, imposed mainly for the purpose of affording preference to goods from the United Kingdom, have been included with "free" goods. The figures relating to the imports of manufactured goods include all goods which have been subjected to such secondary processes as, if performed in this country, would cause them to be included in the returns of the Commonwealth Factory Production. For instance, as Saw Mills and Smelting Works are included with local factories, sawn timber, pig iron, and other products at a similar stage of manufacture have been counted in the imports as manufactured goods.

If the imports of manufactured goods be compared with the output of local manufactures it will be seen that, while in the aggregate, these imports have increased by 63 per cent., the value of local manufactures increased by 62 per cent. Measured by actual values, manufactured imports have increased by £27,951,393, while local production has increased by £62,031,132. If the local production be compared with the imports of manufactured goods which are subject to duty, and which may, therefore, be considered to more closely represent competitive trade, the position appears even more favourable to the local manufacturer. In this group of imports the increase represents only 54 per cent. A considerable decline is noticeable in 1913 as compared with 1912. It may perhaps be well to point out that even this dutiable group includes many kinds of goods not manufactured in Australia, *e.g.*, carpets; silk and velvet piece goods; ribbons, laces, etc.; gloves; glass, sheet and plate, and glassware, etc.

* This increase is due mainly to imports of wheat and other agricultural produce.

Commonwealth	49,696,172	74,491,150	79,482,258	79,096,090	78,571,769	67,360,588

* Included in South Australia.

† Goods destined for overseas countries are largely transferred from one State to another for transshipment to the overseas country. For 1910 and the subsequent years such goods are, in this table, shewn against the State from which they were finally despatched from the Commonwealth. The exports from New South Wales and Victoria—the States in which transshipments are chiefly made—are thus inflated by the inclusion of goods consigned from other States. Owing to the discontinuance of the records of interstate trade from the 13th September, 1910, adjustment on account of transshipments can no longer be made. Taking the annual average of the transshipments recorded during the years 1907, 1908, and 1909, the New South Wales figures include exports of other States amounting to £3,036,672 net, per annum, and Victoria £1,003,714, which were originally despatched as follows:—From Queensland, £1,376,484; South Australia, £1,018,592; Western Australia, £8884; and Tasmania, £1,636,426. The great difference between the value of exports from Tasmania during the year 1901 and subsequent years is due to the fact that in the former year goods despatched from Tasmania for transshipment in other States were recorded as overseas exports from Tasmania, whereas in the later years they are included, for the most part, as exports from New South Wales and Victoria.)

* Owing to the failure to record as Oversea Imports, goods received in one State of the Commonwealth for transhipment to another State thereof, it has been estimated that the value of Imports given in this table is understated by the following amounts:—1901, £2,121,500; 1902, £1,546,924; 1903, £1,024,211. † Does not include the value of Stores shipped in Australian Ports on board overseas ships. The value of Ships' Stores was in 1906, £875,966; 1907, £998,897; 1908, £1,196,106; 1909, £1,071,677; 1910, £1,080,133; 1911, £1,238,446, in 1912, £1,431,985, and in 1913, £1,458,702.

NOTE.—The altered balance of trade in the years 1912 and 1913 is due mainly to loans raised in London. From 1st July, 1911 to 30th December, 1913, £21,039,450 was added to the amount of Public Debt held abroad. The export trade of 1914 was materially affected by the suspension of the exports of wool and minerals in consequence of the war.

* Preliminary figures subject to revision.

Imports and Exports.

**No. 28.—VALUE OF PRINCIPAL ARTICLES IMPORTED AND EXPORTED
DURING THE MONTH OF MARCH, 1915 AND 1914, TOGETHER
WITH THE TOTAL VALUE OF THE SAME ARTICLES FOR THE
NINE MONTHS OF THE YEARS 1914-15 AND 1913-14.**

NOTE.—In the above and preceding tables, the weighted average wage in 1911 for all States or industries, as the case may be, is taken as base (= 1000). The index-numbers are therefore comparable in all respects, that is to say, they shew not only the variations in wages from year to year in each State or industrial group, but they also furnish comparisons as to the relative wages in each State or industry, either in any particular year, or as between one year and another, and one State or industry and another.

No. 67.—PURCHASING-POWER OF MONEY.—Amounts necessary on the Average in each Year from 1901 to 1914 to purchase in each Capital Town what would have cost on the Average £1 in 1911 in the Australian Capitals regarded as a whole.

Year.	Sydney.		Melb'rne		Brisbane.		Adelaide.		Berth.		Hobart.		Weighted Average of 6 Capital Towns
